We can help you,

- Source Obsolete Components
- Source Hard to Find Components
- Source Stock that is on a Long Lead Time
- Cost Analyse your BOMS and Yearly Purchases
- Schedule Orders to Provide a JIT Delivery
- Source Alternative Parts
- Source ROHS and none ROHS parts
- Advertise Your Excess Inventory Worldwide

Services

- **We Can Source Obsolete Components**
With thousands of lines available worldwide Globe Local Electronics can help you source new and unused components that are now obsolete.
- **We Can Source Hard to Find Components**
With thousands of lines available worldwide Globe Local Electronics can source Electronic components that other suppliers may not have access to.
- **We Can Source Stock that is on a Long Lead Time**
With thousands of lines available worldwide Globe Local Electronics can source stock from other countries and suppliers. Stock that other companies and franchises may not have access to.
- **We Can Cost Analyse your BOMS and Yearly Purchases**
Globe Local Electronics will gladly take a look at your BOMS and yearly purchases. In doing this we may find some parts you purchase regularly that we can help you cut costs on.
- **We Can Schedule Orders to Provide a JIT Delivery**
Globe Local Electronics can schedule your orders holding them in our warehouse. This gives you peace of mind knowing that the stock is reserved for you at the price agreed when the order was placed. The stock can also be pulled for a next day delivery once we have the stock in our warehouse (Notification is to be given before 2.30pm on the day of request).
- **We Can Source Alternative Parts**
If there comes a point where the parts you are looking for are not available worldwide or are obsolete and there isn't any new and unused stock available. Globe Local Electronics will work with you to help you find an alternative.
- **We Can Source ROHS and none ROHS parts**
With thousands of lines available worldwide Globe Local Electronics can help you source ROHS and none ROHS compliant components (For those who are exempt).
- **We can Advertise Your Excess Inventory Worldwide**
With many Companies selling their excess as a package and only getting 10% the market value. Globe Local Electronics believes that the best way for you to get the maximum price for your excess inventory is for us to advertise it on your behalf to our many worldwide customers, customers that look for Electronic components daily. In doing so you can ensure to get between 60%-70% return.

Why Choose us?

- Our Service
- Our Storage
- Our Scheduling
- Our Quality
- Our Price
- Our Stock
- Our Availability

Our Service

Globe Local Electronics' aim is to keep you informed at all times as we believe this is the most important aspect when you are doing business with ourselves. To do this we have devised a 'Five Point Service Plan'.

Globe Local Electronic's 'Five Point Service Plan'

- Enquiry acknowledgement
- Part Quotation
- Order acknowledgement
- Part Check and Delivery acknowledgement
- Tracking Number

Enquiry acknowledgement

Once we have your enquiry we will inform you and give you an estimated time for quotation.

Part Quotation

We will quote you the best quality components at the best possible price. If in the unlikely event we can not find quality components we will inform you so you know exactly where you stand.

Order acknowledgement

Once we have your order we will confirm we have received it and also confirm the delivery date as quoted.

Part Check and Delivery acknowledgement

Every part we receive is checked. We also confirm to you we have received the parts and confirm again delivery to yourself.

Tracking Number

Once we have shipped the parts to you we will send you the tracking number so you can track the parts right up to your door.

Our Storage

Globe Local Electronics has teamed together the Star 101 Vacuum sealer, TL3 vacuum pump from Sonex and the AccuAssembly Dr Storage 190-157 QDA Dry Box. Both these machines working together help with the control of the temperature in which components are stored, the moisture level within the storage and reduce the static getting to the components. This gives peace of mind when storing all highly sensitive components. The 190-157 QDA Dry Box allows a graph to be downloaded that states the level of moisture and the temperature within the storage container over the time period in which the components are stored.

Our Scheduling

The advantages of scheduling your orders with Globe Local Electronics:

- As components are ordered in a higher quantities and scheduled the price may be reduced quite considerably.
- Components can be shipped in smaller quantities helping spread costs and save warehouse space.
- Long term price structure. The price on these components stays the same all the way through the schedule, not increasing if the part is pushed out on a long lead time.
- Components are not invoiced until after they are shipped thus freeing up cash flow.
- Components are stored at the Globe Local Electronics location ready for JIT delivery and production. Once components are delivered to Globe Local Electronics they are ready for next day delivery whenever they are required.
- Components are Vacuum packed in Anti-Static packaging
- Once components are Vacuum packed in Anti-Static packaging they are stored in a 190-157 QDA Dry Box giving peace of mind all components are stored in the correct environment.
- All components are shipped with a detailed graph downloaded from the 190-157-QDA Dry Box giving details of the storage conditions.

Our Quality

- We supply only the best components from Europe and the USA. Only as a last resort would we go to the Asian grey market and in this case we would inform the client.
- All our components are ordered from approved Globe Local LTD Suppliers only
- All components are ordered in accordance with Globe Local LTD's ISO 9001:2000 Certificate, (Which we have held from within the first 6 months of the beginning of trading)
- All highly sensitive components are vacuum sealed after they have been checked using the Star 101 Vacuum sealer and stored in our AccuAssembly Dr Storage 190-157 QDA Dry Box
- All Components are backed up with our 30 day money back guarantee

Our Price

Globe Local LTD realise that at this time especially price is of the up most importance to our clients however not in compromising on Quality. We believe we supply top quality components at a very competitive market price and with our scheduling service believe we can save many more companies money on there procurement.
